

A Different Pair of Eyes

What are we going to learn?

Learning Objective

1. To create a piece of descriptive writing that reconstructs a single moment entirely from an animal's point of view, using sensory detail and a sustained viewpoint to build compassion through imaginative perspective-taking.

**Become the non-human animal,
what do they ...**

SEE? Shapes a movement around them

HEAR? Sounds they can't ignore

SMELL? What pulls their attention

FEEL? Underfoot, in the air, on their skin

WANT? Right now, more than anything

FEAR? What makes them freeze or run
